The action of the market yesterday was a source of und the sappointment to those looking for higher prices. After an initial upturn of 18 to 20 points, there was an abrupt reversal, and clossing prices were from 12 to 22 points, there was not privately the contract of the strike difficulty, the unexpected firmness of liverpool, and the continued lack of rainfall in the Southwest. While these all contributed to cause the early advance, they failed to stimulate support from outside buyers of check the reward from the contracts showed particular weak-new was parted as a clear indication that present prices were proving externelly attractive to the South, as add that present prices were proving externelly attractive to the South, as add that present prices were proving externelly attractive to the South, as add that present prices were proving externelly attractive to the South, as add that planters were not only selling cld cotton freely, but were also selling Cotton

Wheat. Prices scored another sub-stantial advance yesterday, and it was plainly evident that the strength of the legitimate supply and domand sit-uation was the main influence. In short, cash markets showed particular strength, and September contracts led

the advance in the future contracts. In the advance in the later of the factor of the advance in the later of the content Metals.—The metal markets opened the week with a quiet tone. Copper prices continue to be well maintained and yesterday the leading producers and sellers were asking 28 cents a pound for November and December delivery, and 27 to 27% cents a pound for November and December delivery, and 27 to 27% cents a pound for first quarter 1917 delivery. Foreign inquiries for considerable ton-nages are in the market, but so far have not developed into actual business.

Prices current for a few of the principal metals and metal products, compared with those prevailing at the corresponding time of last year, follow:

Current Ayear price. ago.

Chicago September gained 6 cents, and closed only 1% cents under December, as compared with 3 cents on Saturday night. It is generally admitted that strong interests have the September under Good control, and therefore it is feared that short sellers there will experience a great deal of difficulty in covering. The fact that premiums on cash wheat were again materially admitted that the prince a great deal of difficulty in covering. The fact that premiums on cash wheat were again materially admitted that the prince a great deal of difficulty in covering. The fact that premiums on cash wheat were again materially admitted that the covering. The fact that premiums on cash wheat were again materially admitted that the face of the prince and the prince are deal of difficulty in covering. The fact that premiums on cash wheat were again materially admitted that the face of the prince and the face that the face that the face that the contracts make it clear that sellers there will experience a great deal of difficulty in covering. The fact that premiums on cash wheat were again materially admitted that the face of the fa A decidedly significant fact was that elevator owners and other large cash interests were active on the buying side and picked up all the wheat thrown over by profit takers. As a result these realizing sales had only temporary influence. The removal of the railroad strike as a factor naturally brought about a more general disposition to do business. From a British point of view this might have been considered a depressing factor, as it allayed fears of restricted exports from this country. Nevertheless, Liverpool was stronger on cargoes to arrive, winter wheat being 6 pence dearer and Manitoba 7½ pence, although the world's chipments were larger and knere was an increase of 1,128,000 bushels in the quantity affoat. Demand was quickened to a potatoes, N.J., bg 3,10@3.55 1,25@1.65 potatoes, N.J., bg 3,10@3.55 1,25@1.60 processed by partial contract of the middle Aliante states, and the weather will be underticated with probable shorters. Wednesday and Thursday and the Great lands and somewhat lower temperature on Wednesday will be followed by partial cloud weather on Thursday. The imperature will be somewhat lower wedness, and it will be somewhat lower well as the middle Aliante states, and it will be somewhat lower well as the middle Aliante states, and it will be somewhat lower well be underticated with probable shorters. Wednesday and Thursday and Thursday. The imperature will be underticated with probable shorters. Wednesday and Thursday and Thursday. The imperature will be underticated with probable shorters. Wednesday and Thursday. The indications are that the weather will be underticated with probable shorters. Wednesday and Thursday. The indications are that the weather will be underticated with probable shorters well be underticated with probable shorters will be underticated with probable shorters well be underticated with probable shorters will be underticated with probable shorters and the first shorters and the first shorters and 1,128,000 bushels in the quantity affoat. Demand was quickened to a large extent by a number of decidedly low estimates of the crop from Western sources. One said that we would not harvest more than 595,000,000 bushels, and another 608,000,000 bushels, whereas we need for use as food els, whereas we need f
